3M Dust, Pollen and Allergen Filter for Split

Air Conditioners, UU010497988, White Do you know what's in the air you breathe at home? Indoor air pollution can be 2-5 times worse than outdoor pollution as pollutants and allergen can escape the air conditioning screens and get released into the air we breathe.

An advertisement for the 3M Air Cleaning Filter. The top left features the 3M logo and the text "Air Cleaning Filter For Air Conditioners". The main headline is "Let's clear the Air." Below this, three circular callouts state: "Improve the quality of your air", "Helps trap unwanted allergens and dust particles", and "Captures 93% of PM2.5 particles*". The background shows a woman in a light blue cardigan and black pants walking through a white doorway into a living room. She is carrying a purple shopping bag and a black bag. The living room has a white sofa, a coffee table, and a vase with white flowers. To the right of the doorway, a colorful, cartoonish monster-like character with large eyes and a wide grin is shown. The bottom left corner shows a box of the 3M filter with the text "Dust, Pollen & Allergen" and "CERTIFIED asthma & allergy friendly". The bottom right corner features a large black circle with the price "499.00". A small asterisk at the bottom right reads "*30 Cubic meter chamber test, high speed for two hours."
